

Dear FCC, I am writing regarding the proposed rule change regarding LPFM which would affect KLOVE radio station. Please do not take this station away! It is a very positive uplifting station that hundreds of thousands of people listen to. It is very well liked and respected in my area and people turn it on first thing in the morning to start the day off right. Some people listen to it at their work. It is not a stuffy radio station. It is not only encouraging, it is also humorous and interesting and up to date and modern. That is why it is so popular. Our life and area are definitely better off with this station being able to play and be on the air. It is for the entire family! Please consider these comments when you are making your decision. Sincerely, A devoted KLOVE listener.
